

## **SPOT FREE**

SPOT FREE rinse is a low pH rinse additive for use in dish washers and glass washers where rinse water is of medium to high hardness. SPOT FREE provides excellent sheeting of water which prevents spotting and streaking to glassware and improves drying time. It can eliminate toweling thus reducing handling and breakage.

### **BENEFITS:**

- SPOT FREE is concentrated for economical use
- Can be used in all water hardness conditions
- Eliminates wiping of glasses and cutlery
- Non-toxic
- Non-foaming
- Odourless rinse

### **USE:**

- SPOT FREE is concentrated and should be used at 3-4 ml per litre of rinse water.

### **PACKAGING:**

- 4 x 4 L/Cartron
- 20 L pail
