

## STARBRIGHT

STARBRIGHT is a concentrate, granular equipment cleaning compound for use both manually or with high-pressure equipment. This concentrated formula tackles the toughest grime and is economical to use. STARBRIGHT is also biodegradable.

### PHYSICAL AND CHEMICAL PROPERTIES:

- Foaming, easily rinsed and does not leave streaks with normal water and concentrate.
- Leaves no residue and is safe for most painted metal surfaces.
- For use in either hard or soft water.
- Emulsifies oil and grease.
- Will not harm skin or clothing.
- Dissolves completely and readily so it will not clog pressure systems.
- pH (1% aqueous solution): 11.0 – 0.2
- Density (loose): 0.69
- Density (tamped): 0.87
- Appearance: Green granular powder
- Odour: Citrus pine odour

### USE:

- Can be used indoors or outdoors.
- Used to clean and degrease concrete floors, even if painted. Used for exterior vehicle cleaning (manually or through high pressure washer).
- Safe for automobile carpet and upholstery cleaning.
- Can be used where solvents are not permitted.
- Very economical to use.
- **FOR VEHICLE SURFACES:** Dissolve 20 – 60gms in 10L of hot water (1/3 – 1 oz. per gallon). Manually wash or spray vehicle with pressure system. Allow contact time of 3 – 5 minutes. Rinse vehicle with clear water.
- **TO CLEAN EQUIPMENT AND ENGINES:** Use 50 – 100gms per 10L (3/4 – 1 ½ oz. per gallon). Spray lightly and allow solution to penetrate for several minutes. Apply full pressure spray.

- **FOR CLEANING FLOORS AND GREASY EQUIPMENT:** Use 20 – 60 gms per 10 L (1/3 – 1 oz. per gallon).
- **FOR EXCEPTIONALLY SOILED FLOOR SURFACES:** Wet floor – sprinkle lightly with STARBRIGHT brush in (if necessary) and allow time to penetrate. Rinse with clear water.

**PACKAGING:**

- 4 x 4 L/Case
- 20 L Pail
